ZU

DIEZ ETYMOLOGISCHEM WÖRTERBUCHE

DER ROMANISCHEN SPRACHEN

MIT BERÜCKSICHTIGUNG VON SCHELERS ANHANG ZUR FÜNFTEN AUSGABE.

VON

Jan.

(JOHANN, URBAN JARNÍK, 1898 –

Buchdruckerei von B. STÝBLO in Prag.

França la 2 f. Starks 10-9-68

VORWORT.

Die erste vor zehn Jahren veröffentlichte Fassung des vorliegenden Werkes ist seit mehreren Jahren vollständig vergriffen, wodurch bewiesen ist, dass meine damals ausgesprochenen Erwartungen gerechtfertigt waren. Eine Neubearbeitung ist um so nothwendiger geworden, als seit Diez' Hinscheiden noch zwei neue Ausgaben seines Werkes erschienen, welche zwar unveränderte Abdrücke der noch von Diez besorgten dritten sind, aber zugleich einen Anhang enthalten, der ebenfalls berücksichtigt werden musste.

Ich bin zu der Ansicht gelangt, dass nur durch ein wirklich vollständiges Register der Zweck, den mein Buch verfolgt, vollkommen erreicht werden könne. Daher sind diesmal alle Wörter aufgenommen, während in der ersten Fassung absichtlich manchen die Aufnahme versagt worden. Dies betrifft namentlich einfache romanische Wörter, welche Diez als Etyma anderer aufstellt oder aus dem oder jenem Grunde zum Vergleich heranzieht. Zu diesem die romanischen Wörter umfassenden Theil ist nun ein zweiter hinzugekommen, Listen von Wörtern derjenigen Sprachen enthaltend, aus denen die romanischen entweder ihr Sprachmaterial schöpften oder denen sie etwas von ihrem Wortreichtum abgaben. Erst durch diesen zweiten Theil wird eigentlich das Werk vollständig und wird nicht nur Romanisten gute Dienste leisten, sondern auch den Kennern aller daselbst citierten Sprachen, da es ihnen ein Leichtes sein wird, sich ohne grossen Zeitverlust darüber zu orientieren, welche Wörter ihres Specialstudiums und in welchem Sinne von Diez in seinem Meisterwerk mit entsprechenden

romanischen in Verbindung gebracht werden. Da nun hier die Wörter in Sprachgruppen geordnet erscheinen, so bilden diese Listen zugleich eine Übersicht des romanischen Sprachschatzes nach dessen Ursprung — soweit sich dieser im Et. Wtb. verzeichnet findet, — was bei einem Werke dieser Art gewiss von Interesse ist.

Was nun die Einrichtung des Buches betrifft, so sind zunächst einige Bemerkungen über die Art und Weise zu machen, wie das Vorkommen von Wörtern in Schelers Anhang zur fünften Ausgabe bezeichnet wird. Um ein Wort als auch im Anhang erwähnt zu bezeichnen, ist grundsätzlich ein Sternchen in Anwendung gebracht, welches links oben beim betreffenden Stichwort angebracht ist. Dieses Zeichen wird in der Regel nur dann gesetzt, wenn das an der Spitze stehende Wort an der betreffenden Stelle des Anhangs au sdrücklich citiert wird. Diese Einschränkung konnte aus dem Grunde durchgeführt werden, dass in meinen Index auch sämmtliche Stich wörter Aufnahme gefunden haben: sobald nun dieser Stichwörter selbst oder irgend eines unter ihnen verzeichneten Wortes im Anhange Erwähnung geschieht, erhalten die den Band bezeichnenden römischen Ziffern das Sternchen und auch der erste Band wird zu diesem Zwecke mit "*I" bezeichnet, während bei diesem sonst jede Bezeichnung in der Regel wegfällt und jedes Wort, bei dem sich kein "H" befindet, dadurch schon in den ersten Band verwiesen wird. Man möge daher - und dies gilt auch vom zweiten, nichtromanischen Theil des Indexes so oft man sicher sein will, ob der Anhang über irgend ein Wort nichts berichte, jedesmal auch das betreffende Stichwort im romanischen Theil nachschlagen: findet man das Sternchen nicht, so kann man sicher sein, dass ein Nachschlagen im Anhang vollständig unnütz wäre. Dass bei dieser Einrichtung ein häufigeres Nachschlagen im Index nothwendig wird, ist wahr, allein es dürfte wenig schaden, da das Nachschlagen selbst nicht so zeitraubend und unangenehm ist, wenn man nur weiss, dass es nicht vergeblich geschieht.

Der Vollständigkeit halber mögen im romanischen Index noch folgende Stichwörter eingeschaltet werden: bis — *1; bricco² — *1; fiappo — *IIa; manevir — *IIc; ebenso möge zu beffa — *I (auch Nachträge); zu ciarlare — *I (im Anhang unter ciarlatano); zu fiacco — *I (im Anhang unter flasque IIc); zu ros noch *I und zu scotolare noch *IIa hinzugefügt werden.

Ausserdem sind auch eckige Klammern in Anwendung gebracht und zwar in doppelter Weise: ist ein an die Spitze der Zeile gesetztes Wort eingeklammert, so bedeutet dies, dass dieses Wort oder diese Wortform ausschliessliches Eigentum des Anhanges sei; ist dagegen eines der rechts angebrachten Stichwörter in eckige Klammern geschlossen, so wird dadurch bezeichnet, dass das an die Spitze gestellte Wort nur im Anhang mit dem eingeklammerten in Verbindung gebracht werde. Befinden sich - was nur selten geschieht - beide Wörter in Klammern, so zeigt dies an, dass das betreffende Wort von Diez in die III. Ausgabe nicht aufgenommen wurde, während es Scheler einer der beiden vorhergehenden entnahm. Wenn Scheler eines Wortes in seinen Nachträgen Erwähnung thut, so wird dies ausdrücklich bemerkt. Diesmal ist auch die so gehaltvolle Vorrede berücksichtigt worden, und zwar weisen die römischen Zahlen darauf hin, neben welchen in runden Klammern die Seiten der V. Ausgabe verzeichnet sind.

Über die weitere Einrichtung ist noch Folgendes zu bemerken. Die Tilde ~ bezeichnet in der Regel Homonyma verschiedenen Ursprunges, nur hie und da dürften sich noch als Überrest der ersten Bearbeitung, wo ein solcher Unterschied nicht gemacht wurde, auch Wörter desselben Ursprunges und derselben Bedeutung auf diese Weise von einander geschieden zeigen. Ein anderer Überrest der ersten Fassung, der sich mitunter als sehr nützlich erweisen dürfte, ist folgender: oft findet es sich, dass einem und demselben Worte in den verschiedenen romanischen Sprachen oder Dialekten, ja manchmal auch in derselben Sprache etwas verschiedene

Bedeutungen beigelegt werden. In der ersten Bearbeitung wurde dies durch das oft recht merkliche Auseinandergehen der die Zeilen bezeichnenden Zahlen bei demselben Stichwort ersichtlich gemacht, während diesmal ein zwischen die Sprachbezeichnungen gesetzter Strichpunkt dasselbe bezeichnen soll: Ein zwischen zwei an der Spitze stehende Wörter von verschiedenem Ursprunge gesetzter Beistrich zeigt an, dass die beiden Wörter in umgekehrter Reihenfolge in Betracht zu ziehen sind so z. B. ad, inde = inde ad.

In den Listen des zweiten Theiles werden, besonders die lateinischen Elemente betrifft, auch bloss erschlossene Formen angeführt. Da nun das Sternchen, dessen man sich bei solcher Gelegenheit zu bedienen pflegt. in diesem Werke andere Verwendung gefunden, so sind derartige Wörter dadurch gekennzeichnet, dass sie entweder vollständig oder derjenige Theil von ihnen, durch welchen sie sich von den in der Litteratur belegbaren Formen unterscheiden, mit Cursive gedruckt wurde; damit sie sich nun von andern sei es klassischem oder dem Mittellatein angehörigen deutlich abheben, wurde für diesen Theil ausserdem eine fettere Schrift angewendet. Auch hier ist auf die Unterscheidungszeichen genau zu achten, da z. B. ein ml., das bei dem letzten mehrerer mittels Beistriche von einander getrennten Wörter steht, zu allen gehört, während, wenn ein Theil einer solchen Reihe von dem andern mittels Strichpunkt getrennt wird, dies so viel bedeutet, dass ml. nur zu den nach dem Strichpunkt gesetzten Wörtern gehöre.

Von der Hinzufügung der Seiten und Zeilenzahlen ist diesmal abgesehen worden, da sie nach dem übereinstimmenden Urtheil der Recensenten der ersten Bearbeitung vollständig überflüssig war und auch Zersplitterung derselben Wörter und deren Vertheilung auf verschiedene Zeilen zur Folge hatte; übrigens würde dadurch der Schein enstehen, als ob das Buch nur für eine einzige Ausgabe des Wörterbuches

verwendbar wäre, während es doch bei allen Ausgaben mit gleichem Nutzen gebraucht werden kann.

Bei dem zweiten, nichtromanischen Theil ist speciell noch zu erwähnen, dass die Etyma — was besonders die lateinischen betrifft — falls sie wenigstens für Diez sicher standen, auch dort überall hergestellt wurden, wo sie von ihm nicht ausdrücklich citiert wurden, sei es, dass er sie als selbstverständlich wegliess, oder, dass er nicht sie, sondern die ihnen entsprechenden romanischen als unmittelbare Quelle anderer romanischen Wörter hinstellte. Im letzteren Falle findet man sie allerdings zu gleicher Zeit auch im romanischen Index verzeichnet. In vielen Fällen ist dies auch bei denjenigen Wörtern der Fall, die bloss zum Vergleich herangezogen wurden, sicherer ist es jedoch, sich da auch im romanischen Theil umzusehen, da Diez anch solche romanische Wörter zu Vergleichen heranzieht, deren Ursprung für ihn nicht ganz sicher steht.

Im romanischen Theile haben allerdings nur thatsächlich vorkommende Wörter Aufnahme gefunden; sollte sich hie und da doch eine der von Diez bloss erschlossenen romanischen Formen eingeschlichen haben, so hat das weiter nichts zu bedeuten, da ja jedermann gewiss nur über wirklich vorkommende romanische Wörter sich wird belehren wollen.

Nicht so bald eignet sich ein Buch zur Herstellung eines anregenden Indexes so vorzüglich wie das Werk des grossen Meisters: fast überall, besonders im zweiten nichtromanischen Theile, befindet sich der Leser zwei Wörtern gegenüber, und überall wird sich ihm die Frage aufdrängen, wie sich Diez das gegenseitige Verhältnis der beiden vorgestellt habe, ob er das erstere anführt, weil er sich das Stichwort davon abstammend denkt oder ob er nur den Versuch einer verunglückten Etymologie verzeichnet, in welcher Beziehung Diez, wie bekannt, recht nachsichtig war. Auf diese Weise könnte jeder mit Hilfe des Buches etymologische Übungen vornehmen, deren Nutzen besonders durch fleissige Benützung des An-

hangs von Scheler erhöht wird, in welchem oft Ansichten anderer Gelehrter denen von Diez entgegengehalten werden. Damit nun diese Benützung leichter durchgeführt werden könne, werde ich ausser den Versehen in meinem Buche auch einige auf Nachweise bezügliche Ziffern dieses Anhanges richtig stellen.

Und so möge diese Neubearbeitung, bei deren Herstellung der Verfasser sich keine Mühe hat verdriessen lassen, als ein Act der Pietät gegen den Altvater der romanischen Philologie allen jenen gewidmet werden, die in dem unsterblichen Werke Belehrung und Anregung zu weiterem Forschen suchen.

Prag, März 1889.

Johann Urban Jarnik.

Zeichenerklärung.

- * bezeichnet, dass das an der Spitze stehende Wort auch im Anhang ausdrücklich citiert wird; ist dasselbe ein Stichwort, so bezieht sich das Sternchen entweder auf dieses selbst oder auf die darunter verzeichneten Wörter.
- [] vor dem Längestrich bezeichnen, dass das von denselben eingeschlossene Wort sich nur im Anhang befindet.
- [] nach dem Längestrich bezeichnen, dass das von ihnen eingeschlossene Stichwort nur im Anhang mit dem an der Spitze stehenden in Verbindung gebracht wird.

Näheres darüber besagt das Vorwort.

Annerkung. Bei Buchstaben, welche mit einem Zeichen versehen sind, wie ç, ñ, ś, ã, ę, u, ä, ë, ō, ū, g und ähn. ist bei der alphabetischen Ordnung der zu Grunde liegende Buchstabe ohne Zeichen massgebend gewesen.
